

## PRACTICES & OFFICES

**SKYLINE CONTRACTING LTD.** is an accomplished general contractor with distinct proficiency in building, and renovating dental and medical offices and commercial spaces from the ground up – with over 20 years of construction excellence, we have earned the accolade of being the premier choice in commercial office realization. If you are ready to build or renovate your dental office, restaurant, hair salon, office, and more, we are confident that our knowledge and expertise will outcome in the most optimal result for you, your staff, and, most importantly, your clients.

As an experienced contractor, we know the in's-and-out's of project management. This means that from project initiation to project closeout we are punctual, calibrating every step of the project to your needs, and compliant to all government and construction regulations.

From the design process, estimation, permit processing, to the project planning and management, **Skyline Contracting LTD.** is dedicated to providing an experience that combines the latest industry knowledge with a customer-oriented service that ensures the outcome is not only modern and functional but, most importantly, to your liking.

We work with incredible designers and the best dental distributors in the country to create products that will wow your clients. Don't risk your dental office by hiring construction companies that don't know the specifics regarding dental office construction. Too many things can go wrong if you don't know every minute detail that goes into dental practice installations. We create spaces that show your clients that you care about quality and customer service. We have the experience to make your project a success.
