2027 SPEAKERS

Excellence In Endodontics

This comprehensive course explores ground-breaking concepts, outlining the essential skills needed to master the art of endodontics, empowering participants with the expertise and confidence to deliver optimal care. The course will showcase the latest reciprocating NiTi instrumentation technology for safe and efficient canal shaping, as well as covering predictable irrigation protocols.

**Attendees will receive hands-on experience in a workshop environment using 3-D printed tooth models.*

All equipment and consumables will be provided for the program.

Dr. Gary Glassman lectures globally on endodontics and is on staff in the graduate endodontics department at the University of Toronto, Faculty of Dentistry. He maintains a private practice, Endodontic Specialists, in Toronto, Ontario. Visit www.drgaryglassman.com or www.rootcanals.ca.

Leadership Lessons for Building a Practice That Performs

This candid and engaging program examines how the doctor's leadership behaviors and daily decisions affect the team, the patient experience, and the health of the business. We'll explore how clear expectations, consistent communication, meaningful recognition, and opportunities for growth help practices attract and retain exceptional team members. Connect effective leadership to employee retention, patient experience, treatment acceptance, productivity, and profitability.

Debra Engelhardt Nash has presented workshops, podcasts and webinars nationally and internationally for numerous study groups, universities, and organizations. She has received numerous awards and her articles have appeared in publications in the US, Canada and England.

Solutions for Success Panel (Parts I & II)

Moderated by: Dr. Jordan Soll

These panel sessions will feature a group of industry experts, covering a variety of topics related to producing peak practice performance, productivity and profit.

I Have It, You Need It

This is a program about real dentistry for real people by a real dentist! Topics include Composites, Adhesives, Bio Active Materials, Provisional Materials, Rotary Cutting Instruments, Lasers, Curing Lights, and much more. Integrate these new concepts into your practice to enhance patient outcomes and profitability.

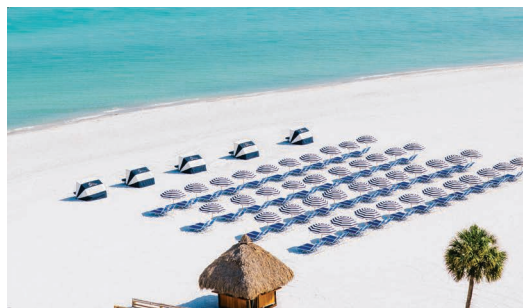

Dr. Howard S. Glazer is a Fellow and Past President of the Academy of General Dentistry and former Assistant Clinical Professor of Dentistry at Albert Einstein College of Medicine, NY. He received the Irwin Smigel Prize in Aesthetic Dentistry from NYU College of Dentistry for distinguished achievement in aesthetic dentistry. He lectures internationally on dental materials, cosmetic and forensic dentistry, and patient management.

Beyond Beautiful: Creating Esthetic Restorations That Last

Ever wonder why some restorations last and others don't? This course will discuss the characteristics of various restorative materials and present how, when, and why they should be used for the most favorable long-term outcomes. This course will set you up for success and you will feel confident when planning, selecting, placing, and maintaining your restorations.

Dr. Pamela Maragliano was a dental hygienist before earning her DMD from Tufts University School of Dental Medicine and her certificate in Advanced Prosthodontics from UCLA School of Dentistry. She is a board-certified prosthodontist, the Chief Editor for Dental Economics, co-host of the podcast Dentistry Unmasked, and maintains a private practice in Salem, MA.
